Family Christian School

Summer Program
2021
June 1 - July 23

Why a Summer Program?

Summer programs allow preschoolers to learn new skills, have new adventures, and participate in exciting gross motor activities. Family Christian School will provide needed childcare during the summer months while encouraging learning through play. This is a great way for incoming preschoolers to preview the school. It is also a laidback transition to the school year. Children will benefit from a fun yet structured environment. They will have fun while practicing important skills like teamwork, coordination, and self-confidence. Teachers will prepare a curriculum that is engaging and hands-on.
